The applicant Newmont Gold Company by Charles Zimmerman, agent
P.O. Box 669 of Carlin
Street and No. or P.O. Box No. City or Town
Nevada 89822
State and Zip Code No. hereby make.... application for permission to change the
point of diversion, manner of use, and place of use of a portion
Point of diversion, manner of use, and/or place of use
 of water heretofore appropriated under permit 51750; well PPW-1
Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.

- The source of water is underground; the Highway Well
Name of stream, lake, underground spring or other source.
- The amount of water to be changed 0.012 cfs (5.39 gpm); 8.69 Acre feet/year (2.83 MgA)
Second feet, acre feet. One second foot equals 448.83 gallons per minute.
- The water to be used for stock watering of up to 400 head of cattle
Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.
- The water heretofore permitted for mining, milling, and domestic
Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.
- The water is to be diverted at the following point Within the SW quarter of the SW quarter of section 30 of T33N, R49E, M.D.B.&M., at a point from which the SW corner of said section 30, a found cement post, bears S 86° W a distance of 388 feet.
Describe as being within a 40-acre subdivision of public survey and by course and distance to a section corner. If on unsurveyed land, it should be stated.
- The existing permitted point of diversion is located within SE quarter of the SW quarter of section 17 of T36N, R50E, M.D.B.&M., at a point from which the E quarter corner of section 19 of T36N, R50-E, M.D.B.&M., bears S 42°33'52" W a distance of 3,758.58 feet.
If point of diversion is not changed, do not answer.
- Proposed place of use all of section 25, T33N, R48E, M.D.B.&M., and all of sections 19, 30, and the N½ and SE½ of 31, T33N, R49E, M.D.B.&M.
Describe by legal subdivisions. If for irrigation state number of acres to be irrigated.
- Existing place of use sections 17 and 20, T36N, R50E, M.D.B.&M.
Describe by legal subdivisions. If permit is for irrigation, state number of acres irrigated. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.
- Use will be from January 01 to December 31 of each year.
Month and Day Month and Day
- Use was permitted from January 01 to December 31 of each year.
Month and Day Month and Day
- Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) A drilled and cased well equipped with a pump, motor, totalizing flowmeter, and a pipeline to the place of use (tank(s)).
State manner in which water is to be diverted, i.e. diversion structure, ditches, pipes and flumes, or drilled well, etc.
- Estimated cost of works five thousand dollars (\$5,000.00)
well completed (no well log available).
- Estimated time required to construct works Five years are required to complete the other diversion works (see 11.).

ten years.

14. Estimated time required to complete the application of water to beneficial use.....

ATTACHMENT

Item 15. Remarks.

Ownership of Certificates No. 2084, 2085 and 3397:

On October 18, 1990 requests for assignment of ownership of Permit No. 6500; Certificates No. 2116, 2117, 2084, 2085 and Permit No. 12111, Certificate No. 3379, to the Episcopal Diocese of Nevada were submitted to the State of Nevada, Department of Conservation and Natural Resources. The requests for assignment were supported by abstracts of title and copies of documentation of land title transfers. Action on the requested assignments of ownership is still pending as of July 1992.

Proposed Use:

Water will be used for quasi-municipal purposes to support new development and construction in the Skyland area in Douglas County within the Lake Tahoe Basin. Water is supplied at Skyland through a municipal water system owned and operated by Douglas County. Water appropriated by Certificates No. 2084, 2085, and 3379 will be mingled with water appropriated by various water rights owned by Douglas County. Proposed point of diversion coincides with location of an intake line owned by Douglas County as a part of the Skyland water system. Proposed place of use coincides with the service area of the Skyland water system.

Use of the water appropriated by Certificates No. 2084, 2085 and 3379 will be controlled by an agreement between the Episcopal Diocese of Nevada and Douglas County. The agreement was approved by the Board of County Commissioners of Douglas County on July 16, 1992. A copy of the agreement is attached to this application

Immediately upon approval of this application, title to the subject water rights will be conveyed from the Episcopal Diocese of Nevada to Douglas County.

It is anticipated that the water appropriated by Certificates No. 2084, 2085 and 3379 will support residential, commercial or institutional development equivalent in water use to approximately 27 residential units. Allocation of the water to new development will be controlled by the terms of the agreement.
